Buffalo Printing Company, United States, 2014. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.Astronaut Dave O Brien blasted into space in the year 2152, bound for Titan, Saturn s moon. His mission: to land and scout for minerals fast becoming scarce on Earth. En route, a fuel leak puts his life in jeopardy. The only option? A never-tried emergency procedure. Dave, I am going to implement Van Winkle in 10-9-8-7-6-5-4-3-2-1, the computer voiced. Gas was pumped into his space capsule, putting him into an induced coma. Dave was entombed in dry ice as a last resort. Food and oxygen soon ran out. Mission Control had no rescue plan. So Dave sleeps and drifts endlessly in outer space. David O Brien wakes in the year 2125, hearing an advertisement for Sony-Augi-Google s new model of factory-made babies ringing dream-like in his ears. When he is fully awake, the modern man with the big head and seven fingers tells him: We now have the technology to save your life. Then we need YOU to save the world. Dave s strange adventure is just getting started.
