iUniverse, United States, 2004. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****. Bio-Typing Beyond Body Language is about assessing and understanding ourselves, as well as other people. It is written by a unique individual who desperately needed a method in order to physically identify people and understand how to deal with social relationships. Johnny Seitz is an adult with autism. He developed Bio-Typing as an exceptional coping skill. As an individual with autism, Johnny Seitz lives in a very different place than most of us normal people (neurotypicals). Normal people are able to look at each other s faces and determine identity. Johnny Seitz sees and quantifies subtle indicators in a person s movement patterns, which can profile an individual with amazing accuracy. And better yet, Johnny Seitz s Bio-Typing inspires genuine human curiosity, is easily learned and is ultimately applicable in our everyday life. Bio-Typing will lead you through both the author s personal journey of understanding and the process he deftly passes on to you, enhancing your own understanding of yourself and the people in your world. This book will take you back to the child you were. It will facilitate your process to better understand the adult you are today and teach you how to better relate to those around you.
