ARTIFICIAL INTELLIGENCE

Chelsea House Publishers. Hardback. Book Condition: new. BRAND NEW, Artificial Intelligence, Harry Henderson, In the 1950s, a new field, cognitive psychology, emerged as a dialogue between the growing capabilities of digital computers and the study of human cognition and perception. Artificial Intelligence (AI) researchers began to develop models of perception, reasoning, knowledge organization, and natural language communication. They also created neural networks, expert systems, and other software with practical applications. AI models in turn have offered provocative insights into the...
