Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Pathology, Diagnosis and Treatment of Intra-Cranial Growths Since this essay was presented for the Fiske prize, in May, 1890, I have been enabled, by the kindness of the Trustees of the Fiske Fund, to make a thorough revision of it. I have not, however, departed from the original plan. At that time I decided to present a collection of new cases, although many of them were defective and did not present characteristic features, rather than to collect more typical published cases from the immense number now reported. The essay is therefore based on the records of forty cases with autopsies. Of these thirty-eight were patients at the Boston City Hospital, and I wish here to thank my colleagues at the hospital for their kindness in permitting me to make use of this material, without which I could not have written the essay. My thanks are especially due to Dr. S. G. Webber, who has aided me with notes and sketches. Some of these cases came under my own observation, and a few of them have already been reported. The greater number, however, have never been published. I have added a case seen by me while interne at the Boston Lunatic Hospital and already reported by Dr. T. W. Fisher, and another case seen in private practice. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
