The Perfect Machine Building the Palomar Telescope

By Ronald Florence

Harper Perennial. Paperback. Book Condition: New. Paperback. 451 pages. Dimensions: 8.4in. x 5.6in. x 1.2in.Almost a half-century after is completion, the 200-inch Palomar telescope remains an unparalleled combination of vast scale and microscope detail. As huge as the Pantheon of Rome and as heavy as the Statue of Liberty, this magnificent instrument is so precisely built that its seventeen-foot mirror was hand-polished to a tolerance of 21, 000, 000 of an inch. The telescopes construction drove some to the brink of madness, made others fearful that mortals might glimpse heaven, and transfixed an entire nation. Ronald Florence weaves into his account of the creation of the perfect machine a stirring chronicle of the birth of Big Science and a poignant rendering of an America mired in the depression yet reaching for the stars. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.

Reviews

This publication is worth getting. it absolutely was writtern very completely and useful. I am quickly could possibly get a pleasure of reading a written publication.

-- ***Ariane Rau***

Without doubt, this is actually the best job by any publisher. It is writter in basic phrases instead of difficult to understand. You will like the way the author publish this publication.
